Scouting The Shops

with Sally

Nice people don't eavesdrop. But the Ad Man and the Editor were talking so loudly that we couldn't help overhearing. Here are some of the bargains they were discussing.

1. Fresh pineapple at Westlake Market, sweet and ripe, 19c.
2. Woodbury soap, 1c sale, 4 bars 26c, Edwards Drug store.
3. Fresh baked breads, Geneva Bakery, all varieties.
4. Merle Oberon in technicolor and "Dr. Ehrlich's Magic Bullet" now playing at Daly City theatre.

Here the Ad Man lost the thread of the conversation and dwelt for some time upon the relative merits of Merle Oberon and Hedy Lamarr. But the Editor soon brought him back to business.

1. First aid for radios, washers, ironers—Byrne Radio store.
2. White King soap, 10 bars, 29c, Colma Pioneer Grocery.
3. Black garden loam, $1.50 per cubic yard, phone RAndolph 7161.
4. Sandwiches on tap daily, Hilltop Lodge, 22 Hillcrest drive.

It was at this point that the Editor lost the thread of the conversation. But the Ad Man said if we can't talk about Hedy Lamarr we're not going to talk about last Saturday night, either. So business was resumed.

1. Careful cleaning, suits, coats and plain dresses, 59c, Beeson Cleaners.
2. Soda water made with pure Daly City water, 3 bottles 10c, Farmers Market.
3. Fine Italian and Swiss salami, 50c lb., Pisa Market.
4. First quality butter, 31c, Robertson's Egg store.

That's inexpensive enough to use in making cakes, we volunteered happily. The Editor turned around and frowned disapprovingly. We retired in confusion and the conference continued.

1. Grapefruit juice, 3 cans for 19c, Lucca Ravioli company.
2. Economical washing bargains, New Process Laundry, HEmlock 6623.
3. Fresh, ripe tomatoes, Daly City Cut Rate Market.

We would like to tell you that this all concluded in a very dignified manner, but it didn't. The Ad Man and the Editor got into an argument about who could throw tomatoes the fastest. The business conference broke up in a riot. They're still hurling tomatoes. No one knows when the Business Conference will re-convene.

Stockings for a Queen

Weaving is one of the oldest arts, but knitting was not discovered until about 1400. Some 200 years later, Rev. William Lee of Nottingham, England, invented a knitting machine. He knit a pair of stockings for Queen Elizabeth but she was reported as disappointed because they were coarse. Rev. Lee then perfected a new machine, and knit the queen a pair of silk stockings.

Auctioneer is Boss

American courts have held that an auctioneer is not compelled to accept the highest bid, according to Collier's. In a Minnesota case, a house was sold to the first bidder for $675 after the second and only other bidder had offered $680. The auctioneer refused to consider such a trifling increase. So the second bidder sued but lost his case on the ground that no contract exists until the offer to purchase is accepted by the auctioneer.

Shopping News Gets "Dressed Up"

The Daly City Shopping News enters your home this week "all dressed up" in a new style of printer's type. Much easier to read, the new type will prove beneficial to both advertiser and reader.

"See for yourself" the difference in reading ease, this week, when you make up your shopping list.

Castor Plant Products

The castor plant is used in the manufacture of lubricants, medicine, flypaper, paints, soap, linoleum, printing and sulphonated castor oil.

Living Lion Guards

The doorway of the tomb of the Mohammedan saint Kalandar La Shahbaz in the city of Sehwan, Sind province, India, is guarded by live, caged lions, reports Collier's.

Haiti Building Boom

Backed by United States credit, Haiti is launching a building boom which will include new roads, bridges and irrigation works.

Treats Out Of Trifles

By Frances Lee Barton

IT'S easy to make a mountain out of a mole hill if you are pessimistic by nature. It's just as easy to make a treat out of a trifle—even though you assure your friends that "you never were a good cook." Follow this simple recipe carefully and you'll prepare something surprisingly delicious. Call it a "Gelatin Trifle" if you wish. Your guests will assure you it is a "Treat."

Gelatin Trifle

1 package lemon-flavored gelatin; 1 package strawberry-flavored gelatin; 2 pints hot water; 1 cup diced canned pineapple; 12 marshmallows, finely cut; lady fingers or strips of cake; canned pineapple fingers; 1 cup cream, whipped.

Dissolve each package of gelatin in 1 pint of hot water. Turn into shallow pans. Chill until firm. Cut in cubes. Combine lemon-flavored gelatin cubes and pineapple. Combine strawberry-flavored gelatin cubes and marshmallows. Line large serving dish alternately with lady fingers and pineapple fingers. Place layer of lemon gelatin mixture in serving dish, then layer of strawberry gelatin mixture; repeat, finishing with layer of strawberry gelatin mixture. Top with whipped cream. Garnish with gelatin cubes, if desired. Serves 10 to 12.

Beefsteak Is Favorite Dish

A survey of restaurants disclosed that beefsteak is the favorite dish in the United States, with corned beef and cabbage second.

Abyssinian Burial Tree

In Abyssinia and other parts of Africa, the baobab tree is often used as a tomb and due to some property of the wood bodies placed therein become mummified.

American Elevators

There are about 195,000 freight and passenger elevators in American office buildings, hotels and warehouses, each of which travels about 5,000 miles a year.

COUNCIL REVAMPS DALY CITY BUS SYSTEM

Important changes in the Daly City municipal bus system were outlined by the city council Monday evening in a stringent attempt to cut operating costs.

Beginning June 3, the busses will run on a new 15-minute schedule from Colma in the south-end to Mission and Sickles avenue, the terminal of the San Francisco municipal busses. This will be a shorter run than the present direct connection with the K car.

Hours of service have been shortened, with the busses running from 6:55 a. m. to 7 p. m. Sunday service will be discontinued entirely.

No more transfers will be issued. A straight 5c fare will prevail, with the exception of school children who may purchase student tickets as before.

The bus route will remain the same from Colma to the top of the hill. From there the busses will proceed down Mission to Crocker, along Crocker to Bellevue, along Bellevue to Acton, along Acton to the terminal at Mission and Sickles, and return by going up Templeton to Bellevue. Return trip will be made over the same route.

Actual running of the busses will be under the direct supervision of Arlie Beecher, bus driver. Complete new schedules will be delivered to home-owners here.

Other business Monday evening included a resolution calling for bids for a new pump and switchboard for the Daly City municipal water system. The old switchboard, installed in the pump house on Citrus avenue fifteen years ago, does not carry enough power to meet present requirements and is both dangerous and inefficient, Water Superintendent Arthur J. Bodien told the council. The new 40-horsepower pump will replace an old 25-horsepower engine at Well No. 7.

Balboa Rock company presented a written request for the re-zoning of Junipero Serra boulevard to permit the establishment of a building materials plant there. The letter stated that the company wished to maintain offices, sales and show rooms for various types of building materials and tile work, and electrical home appliances. The property will not be used for construction or maintenance of bunkers or the piling of lumber, the letter said.

The request was laid over for study at caucus meeting.

Location of Thermostats

Five feet above the floor is considered a generally satisfactory height for the location of thermostats. They should be placed in locations protected from drafts and not in contact with a large volume of air. The rather bulky thermostat of yesteryear has been beautified, and their location today on the living room wall does not mar the decorative scheme.

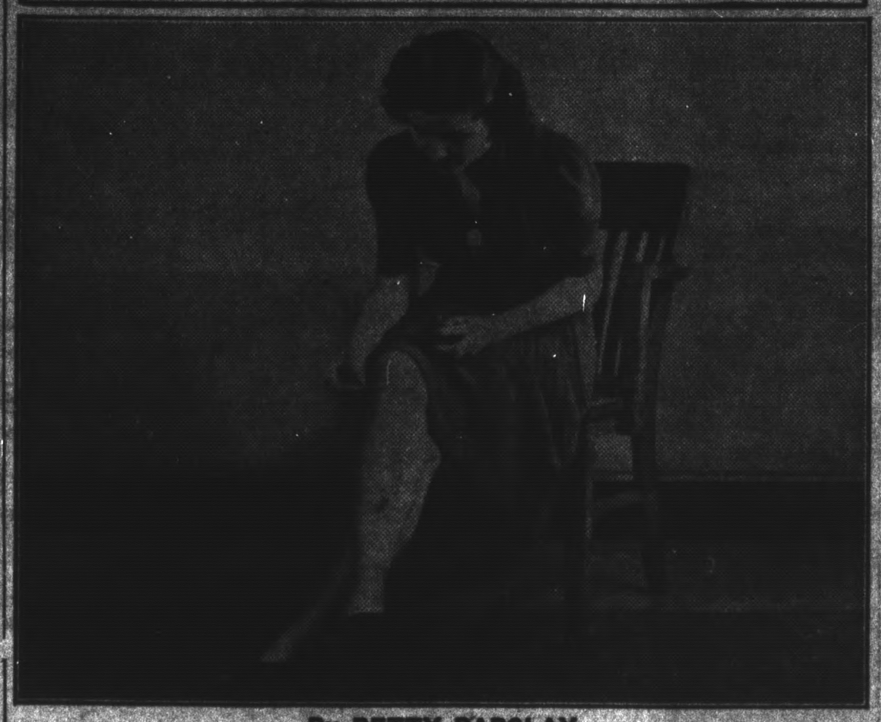
U. S. Leads in Chemistry

Prof. E. J. Crane of Ohio State university, editor of Chemical Abstracts, has reported that the United States leads the world in chemistry. Germany has dropped to third place and Great Britain to second. Professor Crane's report is based on an analysis of 65,000 chemical discoveries.

Slate Roofs

When the roof of a home is renewed, the matter of weight of the material selected must be studied carefully. If the old roof is of wood shingles, it is often possible to cover it without removing the old shingles, but if a heavy material, such as slate, is used, the frame must be checked to see if it will safely carry the added weight.

A Drop In Time Saves Mine



By BETTY BARCLAY

Milady's hose have developed more runners in the past decade than all the athletic coaches and trainers in the country — and these particular "runners" have been the bane of her existence.

One minute she displays a shapely limb of glistening silk. Another, and that provoking runner has spoiled her hose, her disposition and her evening.

But time marches on. The inventive genius of man solves one problem after another. One of the latest has to do with milady's provoking runners. The Paste-Elastic Corporation of Akron, Ohio has developed a liquid thread that is sweeping the country like news of a Hollywood scandal. A little dab with a matchstick on the end of the run, stops the run immediately — and the liquid thread dries invisible.

Incidentally, this new product is a bonanza for the mere male whose cigarette burns a hole in his Sunday trousers. A tiny patch of the material, back of the hole, a coat or two of the liquid thread — and friend wife never knows of the disaster.

Moth holes in clothing; binding rugs; repairing fur coats; sticking down the unruly insole in your shoe; fixing the leather belt; wrapping Christmas or birthday packages; repairing awnings, window shades, automobile roofs; fixing holes in pockets — there is no end to the list of things that may be accomplished by those who have already learned about this magic thread and needle which comes out of a bottle.

'Boom Antwerp'

Americans in Antwerp, Belgium, are sometimes puzzled at the sight of large yellow busses bearing the legend "Boom Antwerp." These are not posters for a booster campaign, but indications that the busses will take you to the town of Boom, 12 miles away.

Hatless Fad Not New

The hatless fad, which was at its height in '32 and '33, was neither new nor collegiate. It dated back before the American Revolution to the time when English dandies carried their hats in their hands to avoid mussing their curled and powdered wigs.

At The '40 Fair

Commercial Plane

An actual sized mock-up of the Douglas DC-4, largest commercial plane in the country, is featured at the United Air Lines exhibit in the Vacationland building on Treasure Island, it was announced yesterday by S. A. Stimpson, regional traffic manager.

The mock-up is divided in the center so that visitors may more easily see the berths, cockpit and pantry arrangements, Stimpson said. Pretty uniformed stewardesses will be in attendance to answer questions. Costing several thousand dollars, the mock-up is an exact replica of the giant 42-passenger transports that United will place in service early in the spring of 1941.

Daily Tours

Beginning Monday, daily tours through the galleries of the Palace of Fine Arts on Treasure Island are being conducted by experts. There will also be brief illustrated lectures in the newly constructed lecture hall, which has excellent acoustics.

Katherine Field Caldwell, known to thousands of Fair visitors from her lively talks last year, is again head of the lecture division, assisted by Marie Dumas, lecturer at the University of California.

The talks to be given at the Fine Arts palace will deal with individual artists, various art movements and periods of art, and technical processes. No fee is charged for gallery tours and lectures.

"Our lectures," said Mrs. Caldwell, "are planned to give a background on the great paintings on display, and will help to make them more significant to the public."

Population Density

Washington, Oregon, Idaho and Montana are less densely populated than Russia.

Arbitrary Date Line

The International Date Line is an irregular line which is drawn somewhat arbitrarily on the map of the Pacific ocean, near the 180th meridian of longitude. This line marks the place where navigators "change their date" on the trans-Pacific voyage. The line is drawn on the map in a general north-and-south direction, separating the islands of the Pacific ocean in such a manner that all those in the east carry the same date as the United States, and those in the west the same date as Japan and Australia.

Auto's Price in 1907

The average price of autos in 1907 was $2,131.

How About Gooseberries?

By Frances Lee Barton

HOW about having a gooseberry treat or two now that their short season is here? Grandmother's year would have been spoiled without a gooseberry pie, and even though she may have seemed a bit old-fashioned to us, you may be sure that a gooseberry pie is just as up-to-date today as it was in the gay nineties. Try this recipe for a surprise dessert:

Delicious Gooseberry Pie

4 cups prepared gooseberries; 2 tablespoons quick-cooking tapioca; 1½ cups sugar; ¼ teaspoon salt; 1 teaspoon grated orange rind; 2 tablespoons melted butter; 1 recipe pie crust.

Remove stem and blossom ends from gooseberries, wash thoroughly, and cut in halves. Add tapioca, sugar, salt, orange rind, and butter, and let stand 15 minutes. Line a 9-inch pie plate with ½ of pastry rolled ⅛ inch thick. Fill with gooseberry mixture. Moisten edge of pastry with cold water and adjust top crust, cutting several slits to permit escape of steam. Bake in hot oven (450° F.) 15 minutes, then decrease heat to moderate (350° F.) and bake 30 minutes longer, or until filling is cooked.

Strawberries Ripe!

By Frances Lee Barton

STRAWBERRIES ripe and strawberries red! Luscious with sugar and cream! Buy 'em and use 'em, their season is short — far too short to most, it may seem. Add to your strawberry recipes too; Make new ways of serving your goal — Such as the following tip for the month — "Luscious Fresh Strawberry Roll."

Fresh Strawberry Sponge Roll

¾ cup sifted cake flour; ¼ teaspoon double-acting baking powder; ¼ teaspoon salt; 4 eggs, unbeaten; ¾ cup sifted sugar; 1 teaspoon vanilla; ⅓ cup powdered sugar; ½ teaspoon vanilla; 1 cup cream, whipped; 2½ cups thinly sliced strawberries.

Sift flour once; measure. Combine baking powder, salt, and eggs in bowl. Place over smaller bowl of hot water and beat with rotary egg beater, adding sugar gradually until mixture becomes thick and light-colored. Remove bowl from hot water. Fold in flour and vanilla. Turn into 15 x 10-inch pan which has been greased, lined with paper to within ½ inch of edge, and again greased. Bake in hot oven (400° F.) 12 minutes. Quickly cut off crisp edges of cake. Turn out on damp cloth to cool; remove paper. Fold powdered sugar and vanilla into whipped cream. When cake is cold, spread with whipped cream, then with strawberries, and roll as for jelly roll. Sprinkle lightly with powdered sugar. Serve with additional whipped cream and strawberries. Serves 8.

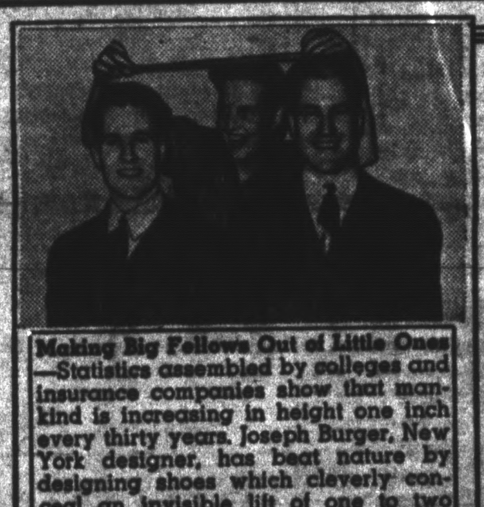
U. S. Outlying Territory

The total outlying territory of the U. S. is 711,606 square miles, the total continental area, 3,026,789 square miles.

First White Visitor

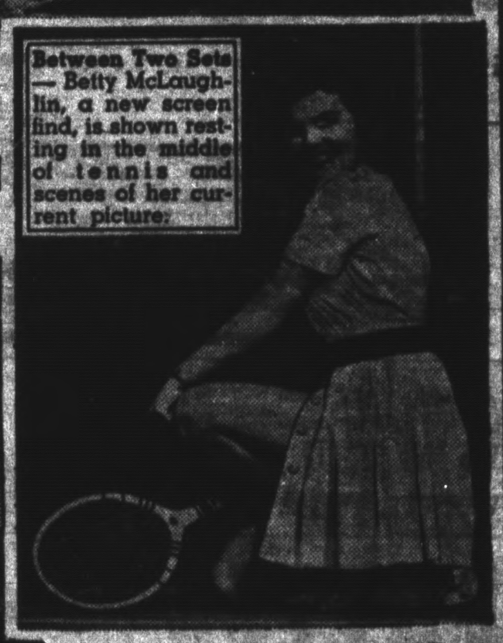
On March 6, 1521, Ferdinand Magellan, the first white man to go to the South Sea islands, landed on Guam, the southernmost island of the Marianas group.

THE RECORD SNAPSHOTS



Making Big Fellows Out of Little Ones—Statistics assembled by colleges and insurance companies show that mankind is increasing in height one inch every thirty years. Joseph Burger, New York designer, has beat nature by designing shoes which cleverly conceal an invisible lift of one to two inches in fashionable styles. The McFarland twins solved their mistaken identity problem when Mr. Burger added a couple of inches to Art's height. George's wife registers her approval above.

Freak Alligator With Fifth Leg Growing from the Middle of His Back—Oscar, freak saurian at the St. Augustine Alligator-Ostrich Farm. He was born without a tail, with a tail he would measure about 10 ft.



Between Two Sets — Betty McLaughlin, a new screen find, is shown resting in the middle of tennis and scenes of her current picture.

New Aspirin Box A Beauty Safeguard

Pretty Patricia Plunkett, debutante holding in her left hand a new aspirin box designed to save broken fingernails and spoiled manicures. The new gadget which opens with a snap by merely pressing a red spot on the back of the box, works on a simple fulcrum principle.

New Tire of Either Rayon or Cotton Cord Construction for Smart Cars

A new passenger car tire combining unusual wearing qualities with custom-built appearance, is announced by The B. F. Goodrich Company. The tire is designed for cushion comfort and quiet operation and has a new type of ribbed tread. Vice-President James J. Newman, is pictured with the new tire.

Champion Golfer to Caddy—Notice Golf Manufacturers. Cyril Walker, 1924 U. S. Open Golf Champion, the year he beat Bobby Jones by 3 strokes. Bad health has compelled him to give up playing and he totes bags for golfers. He was said to have earned upward of $100,000 after defeating Jones.

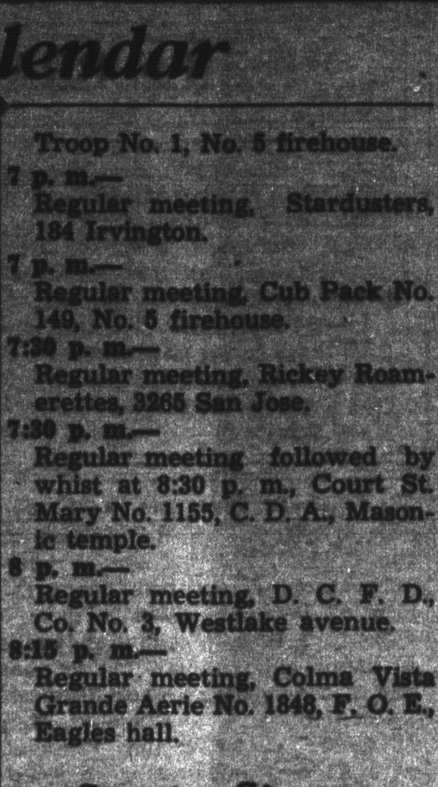
Bok Peace Award

In 1923 Edward Bok, the philanthropist, founded the American Peace award, offering $100,000 for the most practicable plan to establish and preserve the peace of the world.

Sunrise Singers



Headlining the largest cast ever to appear regularly in person on an early-morning radio program, Maureen O'Connor, above, and Harvey Harding and Mary Rosetti, below, are heard in the KNX "Sunrise Salute," conducted by Fletcher Wiley from 6:00 to 7:30 A.M. daily except Sundays. Songstress Pat McKaye and Don Roland's Tunesmiths also are featured on the "Sunrise Salute."

Look Out Below

An object dropped from a cliff a mile high will take about 19 seconds to reach the earth.

For Memorial Day Guests

By BETTY BARCLAY

Memorial Day almost always brings guests to those who spend the day at home. This sad holiday calls for no elaborate feast, but it is a gracious gesture for the hostess to serve one or two unusual and unexpected delicacies. Here are some simple recipes that may aid you:

Lima Salad Manhattan

1 cup cooked, dried Limas
1 cup sliced cabbage
½ cup grated American cheese
Boiled or mayonnaise dressing
1 cup pickles, chopped

Mix Limas, cabbage, and pickle with dressing. Serve on crisp lettuce leaves and sprinkle with cheese.

California Rice (Serves 6-8)

2 cups fluffy, hot, cooked rice
2 oranges, peeled and segmented

Place rice in serving dish, cover with orange segments and lemon sauce.

Lemon sauce: Mix and bring to a boil:
1 level tablespoon cornstarch
1 teaspoon grated lemon rind
½ cup sugar
1 cup water

Boil 5 minutes. Remove from fire. Add:
2 tablespoons lemon juice
2 tablespoons butter

Keep hot until ready to serve, or serve cold if preferred.

Magic Fruited Macaroons

½ cup sweetened condensed milk
2 cups shredded coconut
1 cup dates, uncooked prunes or apricots

Blend sweetened condensed milk and shredded coconut thoroughly. Add either dates, prunes or apricots, which have been finely chopped. Drop by spoonfuls on buttered baking sheet, about 1 inch apart. Bake in mederate oven (350° F.) 10 minutes or until a delicate brown. Remove from pan at once. Makes about 24.

Hawaiian Coconut Mounds Filling

1-1 pound 14 ounce can Hawaiian pineapple gems
1 cup sirup drained from gems
1 tablespoon cornstarch
2 tablespoons sugar
¼ teaspoon salt
1 tablespoon lemon juice
3 egg yolks, beaten
2 teaspoons butter
3 egg whites
6 tablespoons sugar

In saucepan, blend 2 tablespoons sugar, cornstarch and salt. Slowly add sirup and lemon juice. Cook until smooth and thickened, over low heat or boiling water, stirring constantly. Pour over beaten egg yolks. Return to heat and cook 1 minute. Stir in butter and remove from heat. Cool. Fill the centers of cup cakes baked in individual Mary Ann pans or remove the centers from cup cakes and fill. On top of the custard put 2 well-drained pineapple gems. Make a meringue of 3 egg whites and 6 tablespoons sugar. Cover top and sides of cakes with meringue, sprinkle with shredded coconut and bake until puffy and brown in a moderately slow oven (325° F.).

Yield: 6 to 8 coconut mounds.

These coffee cocktails co-star happily with any assortment of cookies. Everyone can enjoy extra helpings even late in the evening for they won't have to worry about their sleeping problems.

Coffee Cocktails

1 cup decaffeinated coffee, drip or regular grind
4 cups water
4 heaping tablespoons whipped cream or ice cream
Cracked ice

Make the coffee by any desired method. If percolated "perk" slowly and gently about 18 minutes or longer than ordinary method. Pour over cracked ice to cool. Put coffee and cream in cocktail shaker and shake well. Serve well chilled, in tall glasses. Serves 4.

Eight Ounce Gloves

The International Amateur Boxing federation has stipulated gloves in bouts under its jurisdiction must weigh eight ounces, the leather and stuffing not to exceed four ounces each.

Rosebud's Grapevine

A single grapevine in Rosebud, Texas, covers the entire side of a building and is half a block long.

Largest Jewel

The Smithsonian institution has acquired the world's largest jewel. The stone is an almost flawless crystal of topaz, weighing 153 pounds, or 350,000 carats. The average topaz for a ring or necklace weighs about five carats. The huge gem was discovered in the Minas Geraes province of Brazil. Its color is pale blue on the outside and a pale sherry on the inside.

Vegetable Cocktail Bar

Milwaukee, Wis., now has a vegetable cocktail bar that serves only vegetable drinks, declares the American Magazine. The operator is Mrs. Edith Lange, whose specialty is a garlic-parsley cocktail. It contains the juice of green peppers, with three cloves of garlic, and the juice of parsley mixed in.

U. S. Mutton Consumption

Nearly two-thirds of all the lamb eaten in the United States is consumed north of Washington and east of Pittsburgh, an area which grows less than 5 per cent of the country's sheep.

U. S. Cigarette Manufacture

Three cities in North Carolina—Winston-Salem, Durham and Reidsville—manufacture over half of all the cigarettes produced in the United States.

The More The Merrier

—By Frances Lee Barton—

WHEN our forebears coined those old saws, "the more the merrier" and "you can't have too much of a good thing," they must have been referring to a cooky tin crammed to overflowing! But if our grandmothers and our great aunts had known about that modern invention, ice-box cookies, they surely would have burst out with "there's never a good but there might be a better." An ice box cooky glorified with the goodness of coconut is a supreme triumph in this type of cooky.

Coconut Ice Box Cookies

4 cups sifted cake flour; 3 teaspoons double-acting baking powder; ½ teaspoon salt; 1½ cups softened butter or other shortening; 1½ cups sugar; 2 eggs, unbeaten; 1 teaspoon vanilla; 3 cups shredded coconut.

Sift flour once, measure, add baking powder and salt, and sift again. Combine butter, sugar, and eggs, beating thoroughly; then add vanilla and coconut. Add flour gradually, mixing well after each addition. Divide dough in four parts. Place on waxed paper and shape into rolls, 1½ inches in diameter; roll each in waxed paper. Chill overnight, or until firm enough to slice. Cut in ⅛ inch slices; bake on ungreased baking sheet in hot oven (400° F.) 5 to 7 minutes. Makes 12 dozen cookies.

Robinson Plays New Role In Screen Drama

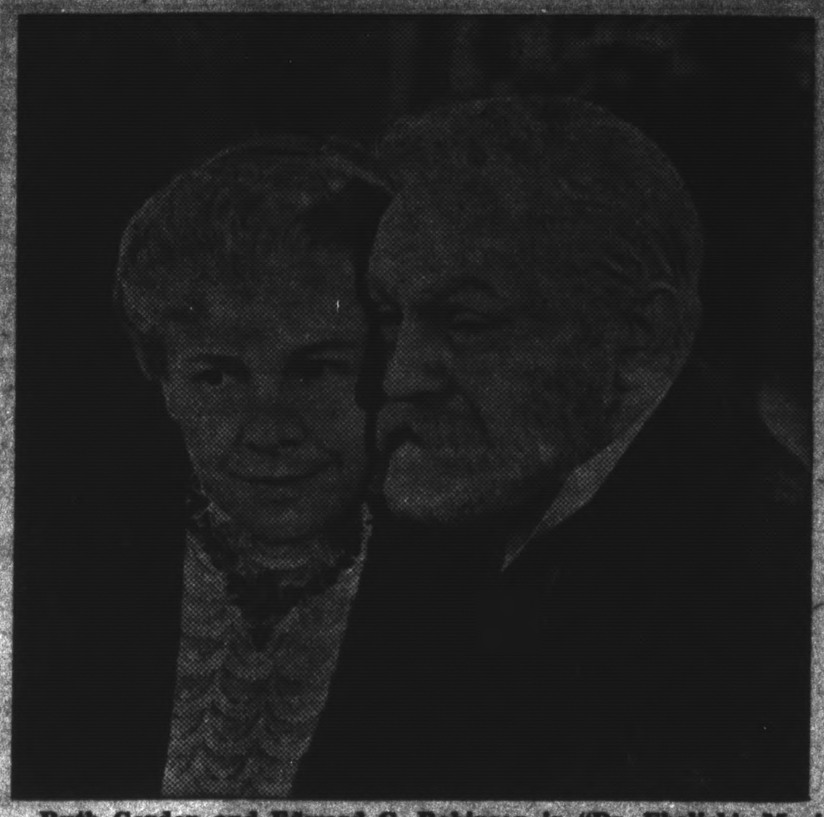
Not since the advent of talking pictures has such a radical departure in film technique been made as in Warner Bros. film "The Story of Dr. Ehrlich's Magic Bullet." Ever alert to the public's demand for the unusual, this company has pioneered nearly every new entertainment trend in the industry. Now they have shattered every precedent for dramatic frankness in telling the true story of mankind's strangest weapon. It is a tense, completely absorbing picture, flawlessly produced.

"The Story of Dr. Ehrlich's Magic Bullet," which opened yesterday at the Daly City theatre, marks a turning point in Edward G. Robinson's career. In a role utterly different from anything he has done before, he gives a performance so superb that it ranks with the finest portraits in screen history. He lives the role in a thoroughly impressive performance covering the span of years from young manhood to gray old age in a constant battle for the humanities. His makeup throughout the picture is a triumph in itself and his interpretation of the Ehrlich character leaves nothing to be desired.

While Robinson's performance is naturally the dominating one, each single member of the large cast does a remarkably fine job, whether the role is large or small. Ruth Gordon, familiar heretofore only to stage audiences, makes her screen debut as Ehrlich's loving wife and helpmate, a role which she handles with rare warmth and understanding. It is a perfect interpretation of the wife whose sole devotion is to her husband and the cause that he serves.

Otto Kruger gives a fine and sensitive performance as the doctor's life-long friend and co-worker. Maria Ouspenskaya, Donald Crisp, Montagu Love, Donald Meek, Henry O'Neill, Albert Basserman, Edward Norris, Harry Davenport and a long list of others stand out in perfectly delineated roles.

AT DALY CITY THEATRE



Ruth Gordon and Edward G. Robinson in "Dr. Ehrlich's Magic Bullet," now playing at the Daly City theatre.

Western Duck Sickness

Vanez T. Wilson is one hunter who doesn't take his prizes home with him; he sets them free, reveals the American Magazine. Wilson is head of the Bear River Migratory Bird refuge at Brigham, Utah. He scours the marshes for sick ducks, and every year cures thousands of their most deadly disease—western duck sickness. The plague was brought on when irrigation projects took away too much water.

London's Autumn Flowers

In the countryside around London in the fall can be found Heather and Willow Herb in flower, Travelers Joy in the Hedgerows, Convolvulus, Teazles, ivy in bloom, and plenty of blackberries and nuts for the gathering.

Early Soil Conservation

One of the earliest suggestions of soil conservation in Massachusetts was an act of the general court in 1739, forbidding farmers to turn their live stock loose to feed on the meadows between Truro and Provincetown. Horses and cattle had eaten so much of the beach grass that the sand dunes were heading toward the meadow land.

Largest Underground Canal

The world's largest underground canal flows from the port of Marseilles in France to the Port de Bone, and is 4½ miles long, and has a width of 72 feet.

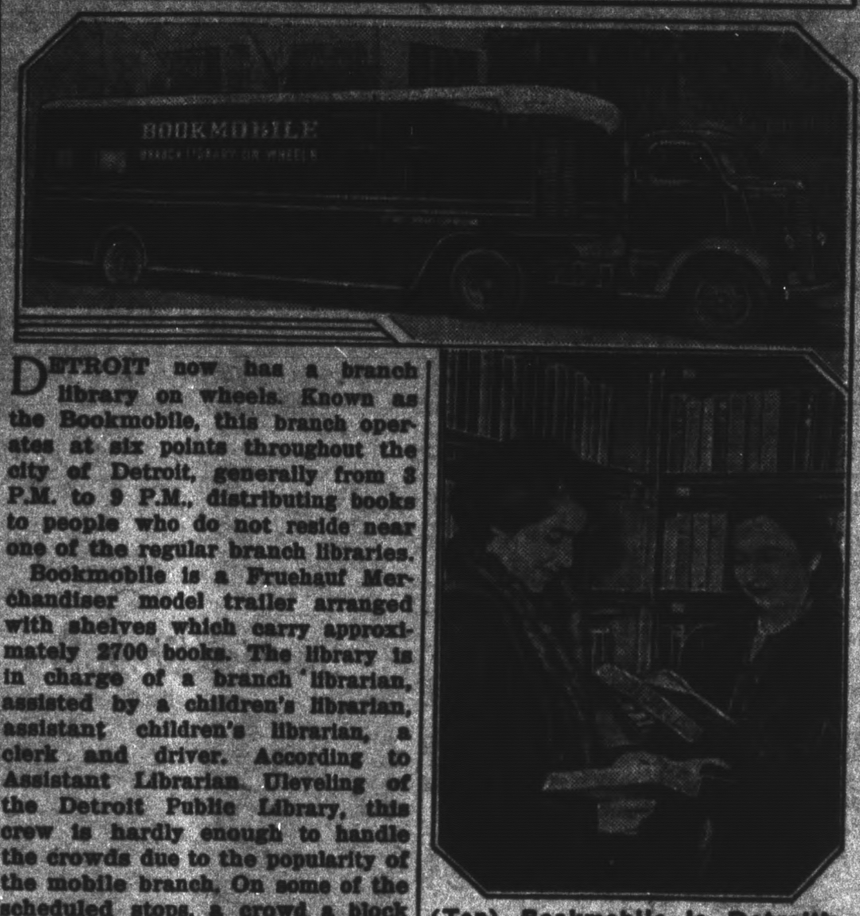
Movie Fan

On a visit to the penal colony on Devil's island, French Guiana, Cameraman Pierre-Andre Martineau discovered the world's most enthusiastic movie fan. He was a convict whose body bore tattooed portraits of Garbo, Marlene Dietrich, Mary Pickford and other film stars. His gallery is now complete; he has no more room for pictures.

Chemical Energy Relationships

Today chemists without having to conduct a single experiment can frequently calculate whether a certain product can be produced from new and untried raw materials, the American Chemical society reports. Energy relationships are studied to learn whether or not an untried reaction will liberate free energy. Energy has a natural definite tendency to scatter, and this tendency provides the driving force of chemical reactions.

MOBILE BRANCH LIBRARY



DETROIT now has a branch library on wheels. Known as the Bookmobile, this branch operates at six points throughout the city of Detroit, generally from 3 P.M. to 9 P.M., distributing books to people who do not reside near one of the regular branch libraries.

Bookmobile is a Fruehauf Merchandiser model trailer arranged with shelves which carry approximately 2700 books. The library is in charge of a branch librarian, assisted by a children's librarian, assistant children's librarian, a clerk and driver. According to Assistant Librarian Uleveling of the Detroit Public Library, this crew is hardly enough to handle the crowds due to the popularity of the mobile branch. On some of the scheduled stops, a crowd a block long and three people abreast have been awaiting its arrival. The Detroit Public Library is keeping a close tally on the results which so far have shown astonishing popularity.

Bookmobile is conducted like any other branch, issuing cards which are good anywhere in the Detroit library system or accepting cards which have been issued at any of the branches. It is stated that the idea is being closely followed by librarians in several other large cities throughout the United States.

(Top) Bookmobile is Detroit's branch library on wheels making scheduled stops at six points throughout the city. It is a Fruehauf Merchandiser trailer and carries 2700 books. (Below) Selecting books inside Bookmobile, Detroit's branch library on wheels.

Engineers in White

To conform with the color scheme of one streamlined train, the engineer and his assistant are dressed in white instead of in the usual blue overalls.

College Attendance

The chances of attending college, which were one in 33 in 1900 are now one in six.

Model Airplane Builders

There are more than 1,500,000 young people engaged in constructing and flying model airplanes.

Wild Duck Increases

The number of wild ducks in continental North America was increased by nearly 2,500,000 during the past year through the efforts of American sportsmen.

Throngs Applaud New Edition Of Ice Follies

Repeating the sparkling entertainment which the Ice Follies provided for some 400,000 persons in San Francisco last year, an entirely new edition of the famous skating show is appearing nightly at Winterland.

The same ice stars who delighted local audiences during a seventeen-week run last year are here again, with a completely different presentation.

Production is the keynote of the new Ice Follies. The revue this year is composed of a number of closely-knit exhibitions, combining three and four separate features.

In the opening number, which is called "Arctic Fantasy," two ensemble groups, a comedy group, a comedy single number and a dazzling pair skating act appear. Settings are spectacular, with igloos reproduced from the far North and northern lights in the background.

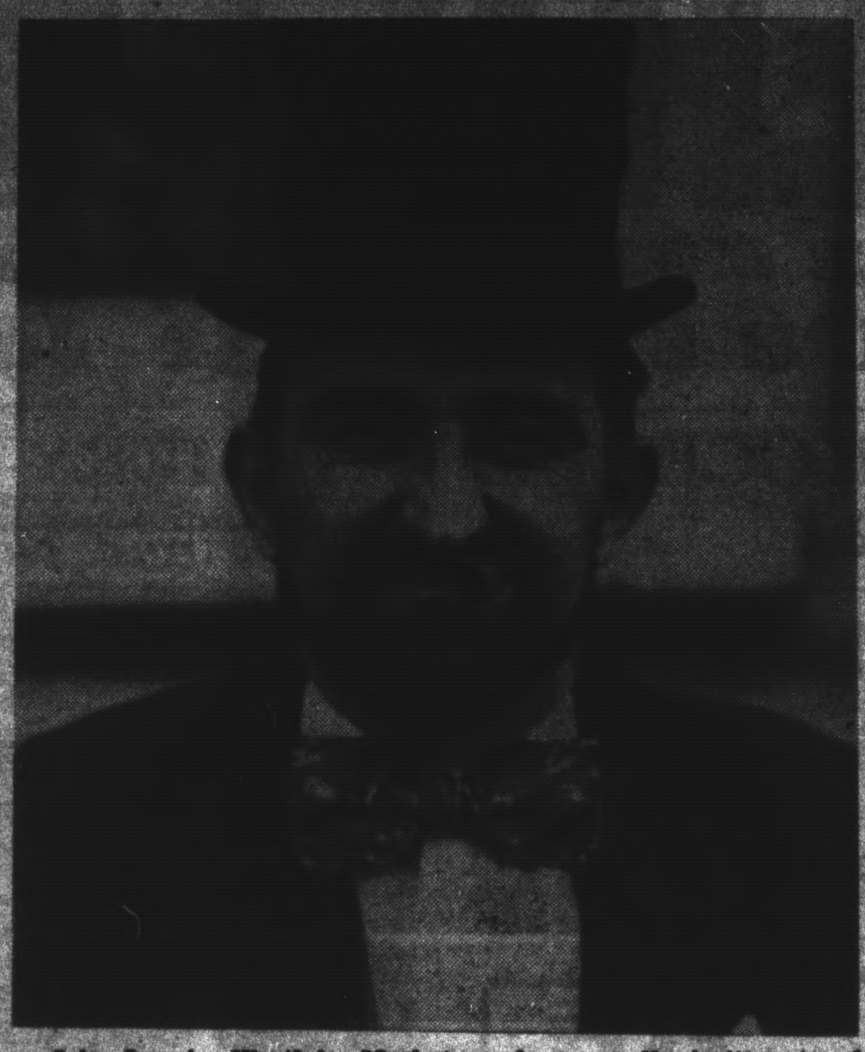
Bess Ehrhardt, "America's sweetheart of the ice," Roy Shipstad, American champion; the famous Evelyn Chandler; Oscar Johnson; Eddie Shipstad; Osborn Colson, Canadian champion; Fran Claudet; Ruby and Bobby Maxson and others who appeared with the show last year are here again.

Good seats are available for most performances, it was announced. Tickets are on sale at Winterland and at Sherman Clay box offices in San Francisco and Oakland.

Gorillas Are Sissies

The ferocity of the gorilla, terrifying "boogey" of screen and fiction, has been disproved by explorers. They agree in saying that the animal is extremely shy and difficult to catch sight of, often hiding in the thickest part of the woods on the approach of man.

DESPERADO



John Leepin, Westlake Market employee, really isn't as tough as he appears to be in this picture. However, John's clever costume and rugged Fiesta beard won first prize in the recent whiskerino contest sponsored by Henry Warshawski's Dry Goods store, 6340 Mission street.

Synthetic Koroseal

Electric transmission cables coated with a new synthetic called koroseal have been found capable of resisting the destructive ravages of the extremely corrosive gas, ozone, for periods as long as three years. Cables coated with ordinary insulating material are eaten through by ozone in three seconds.

Million Guitar Players

More than 1,000,000 persons in the United States are guitar players.

Automobile Ownership

Only one-quarter of America's 24,000,000 automobile owners have incomes of $60 a week or more, according to a survey reported by a South Bend, Ind., manufacturer.

Shanghai Child Refugees

Smiling for the first time in months, 400 child refugees in Shanghai were transferred to Chekiang province where they are beginning life anew.

Mahogany Native in U. S.

Mahogany is native to the United States. It is found though only in small quantities in southern Florida on the mainland and on the larger of the keys. It is the same species of mahogany that grows in the West Indies, where it is known principally as Santo Domingo or Cuban mahogany. An avenue in Miami is lined for many blocks with mahogany trees. The average person might easily mistake them for ash trees due to the similarity of the leaves. "Mountain mahogany" is a large shrub or small tree found in the western states. It is not a mahogany but a member of the rose family. The wood is very close grained and of a rich red color. The trees are small and the wood has not the stability of mahogany.

Ancient Roman Encampment

Campo Marzio, one of the military encampment grounds of ancient Rome, will be restored. Recent excavations disclosed many plaques bearing likenesses of Emperor Vespasiano and other military figures.

Money in Your Pocket

You don't have to shoot the bill collector or put in a new furnace to save on your winter fuel bill. Scientists of a major glass company have found that savings up to 30 per cent can be obtained by "window-conditioning" a house with storm sash.

World's Greatest Housekeeper

Probably the world's greatest housekeeper is the Pullman company which in a single year purchased 220,520 sheets, 157,760 pillow cases, 20,252 tidies, 456,329 hand towels, 24,310 headrest covers, 13,032 napkins and 3,260 table cloths, the Association of American Railroads reports.

...ulation Terms Defined

"Fully insulated" and "completely insulated" are two terms frequently misused, FHA officials say. "Fully insulated" means that the house is equipped with both wall and roof—or top-floor ceiling—insulation. Both new and already-built houses may be "fully insulated."

Pork Sausage Links With Spanish Rice

Place pork sausage links in a cool skillet. Add two tablespoons water, cover, and let cook slowly for about five minutes. Remove cover, pour off any remaining water, and cook uncovered until the links are nicely browned on all sides.

Spanish Rice
2 cups cooked rice
2 tablespoons sausage drippings
1 small onion, diced
2 cups tomatoes
1 small green pepper, diced
Salt and pepper

Dice onion very fine and cook in sausage drippings until browned. Add cooked rice, salt and pepper, green pepper, and tomatoes. Cook slowly for about thirty minutes, or until flavors are well blended. Serve with pork sausage.
